Claim number #17BK3283-LTS

Gentlemen:

I am including a typical copy of the monthly engineering inspection report for one of the hospital's renovations.

All projects were completed as contracted.

I am accepting the stated retainage, and not interested in further discovery procedures.

Respectfully.

INFORME MENSUAL

AEP PROYECTO #5634 DI-ES		FECHAS:	
HOSPITAL UNIVERSITARIO FASE-A		COMIENZO:	TERMINADO:
PUEBLO: RIO PIEDRAS		18 / ENE / 99	14 / DIC. / 99
COSTO: \$1,859,000			
MEJORAS: PISO #2 DE OB/GYN, CUARTOS DE AISLAMIENTO, TANQUE DIESEL, "RETROFIT" DE CENTRIFUGAS, TORRES DE ENFRIAMIENTO, CUARTO DE MAQUINAS.			

PUNTOS SOBRESALIENTES:

ENERO DE 1999

Contratistas:

James Air Conditioning, Inc..
Ing. José Díaz

Pro-Electric
Sr. Héctor Morales

American Control

Administrador de Proyectos
A. E. P.:

Ing. Dionisio Cruz

Proyectista:

Ing. Miguel A. Mir
Miguel A. Mir & Associates

Ingeniero Planta Física:

Ing. Juan Angulo
Hospital Universitario

Inspección Contratada

Ing. Libertario Avilés
Ing. José Ramírez

AFASS

Ing. Carmen Padilla
Ing. Ricardo Esbri

1. La fecha oficial de comienzo del proyecto es el 18 de enero de 1999, con 330 días de duración.
2. El 15 de enero de 1999 se hace una reunión de preconstrucción en AEP, donde se le orienta al Contratista los procedimientos generales de cómo llenar los documentos oficiales que hay que entregar a la Inspección, Proyectista, AEP, etc.

2-

Informe Hospital Universitario Fase-A,
enero de 1999

3. Se le asigna al Contratista y a la Inspección residente oficinas en el tercer piso del edificio de la Fase-A.
4. Contratista solicita que se desocupe el piso de Ob/Gyn (segundo piso) y los cuartos de aislamiento del tercer y cuarto piso. Ing. Amaral indica que tienen planes de mudar las pacientes de este piso a otra área en el mismo segundo piso de forma temporera en lo que se realizan las mejoras. Ing. Carmen Padilla sugiere solicitar Orden de Cambio para habilitar el primer piso antes de mudar las pacientes.
5. El Contratista hace entrega de las siguientes tres cartas:
 - a) inconvenientes en labores que se le presentaron durante la semana
 - b) carta de intención para comenzar a remover el tanque diesel soterrado
 - c) carta de referencia de los subcontratistasPendiente a evaluación.
6. Se le indica al Contratista que puede comenzar la movilización a partir del 27 de enero de 1999 debido a que la Comisión Conjunta está inspeccionando para acreditación.
7. Queda pendiente asignar área para furgones y espacios de estacionamiento para uso del Contratista. Se propone el área verde adyacente al edificio de generadores. Los demás trabajadores tendrán que estacionarse en el estacionamiento del Hospital Cardiovascular.
8. Se propone desviar el acceso a la zona de carga por el área del estacionamiento adyacente mientras se trabaja en el tanque diesel soterrado.

Ing. Carmen Padilla
Ing. Ricardo Esbri

1. La Supervisión hace entrega, por segunda ocasión, del Memorial Explicativo sobre la reparación del sistema de intercomunicación de enfermeros/as del área de Ob/Gyn.
2. El Contratista indica que ajustaron el ángulo de las aspas del abanico de una de las celdas de la torre de enfriamiento.
3. Pendiente a que el Contratista entregue planos "as built" del cuarto de máquinas.

2-

Informe Hospital Universitario Fase-A
diciembre de 1999

4. El Ing. Angulo indica que las cubiertas de las torres de enfriamiento marca Marley, localizadas en el techo del edificio de la Fase-B, se cayeron. El Contratista indica que las ajustará en su lugar. En fecha posterior, el Ing. Angulo indica que fueron mal instaladas. La Supervisión le indica al Contratista que se oriente con el suplidor de la torre para verificar el tipo de tornillos que lleva para que los provea. Luego, el Contratista indica que reemplazó los tornillos de las tapas; sin embargo no puso las tuercas de mariposa. Señala que las pondrá próximamente. Se orientará con el suplidor en cuanto a mejorar el agarre que no lleva tornillos en las tapas.
5. El Contratista indica que AEP no ha aprobado la orden de cambio sobre las gavetas y arrancadores de las bombas de agua de torre. Estas se demoran aproximadamente tres meses en llegar.
6. El Contratista indica que le solicitó al subcontratista la lista de actividades y fechas para determinar la duración de la extensión de tiempo de las labores en las facilidades temporeras de Ob/Gyn. La Inspección está revisándola para certificarla.
7. El Contratista indica que luego del cambio de refrigerante de la centrífuga #3, ésta fué puesta en operación, sin embargo, su purgadora permitió la entrada de aire al sistema por lo que se tuvo que apagar. Esto demuestra el estado crítico en que se encuentran las purgadoras y urge la aprobación de la orden de cambio correspondiente.
8. Pendiente a que el Ing. Angulo entregue al Contratista muestra de los tornillos de las mezcladoras del área de Ob/Gyn para que se puedan reponer. En fecha posterior, el Contratista compró los tornillos.
9. Pendiente a que el Contratista entregue la cotización sobre la instalación de un medidor de nivel de combustible "petrometer" para el tanque.
10. La Inspección indica que le entregó al Contratista la lista de las partidas dentro de la Orden de Cambio #1.
11. Pendiente relocalizar la escalera de acceso al techo del cuarto de máquinas de los elevadores ya que está siendo obstaculizada por los tubos de agua helada.
12. Pendiente a que el Contratista le entregue, por escrito, al Ing. Angulo la fecha de entrega de los cuartos de aislamiento del cuarto y quinto piso ya que está teniendo problemas con OSHA.
13. El Ing. Angulo indica que se mandó a reparar la purgadora para poder encender la centrífuga #3. Queda pendiente verificar el rendimiento de una celda de la

3-

Informe Hospital Universitario Fase-A
diciembre de 1999

torre de enfriamiento por el ajuste en el ángulo de las aspas del abanico una vez se tenga la centrifuga encendida.

14. El Contratista indica que falta la conexión eléctrica del abanico de extracción del cuarto de máquinas.
15. El Contratista indica que reemplazará próximamente la tubería de descarga de los discos de ruptura de las centrifugas a un tamaño mayor.
16. El Contratista proveyó el "self contained breathing apparatus" que faltaba y los ubicará en la oficina de mantenimiento.
17. La Inspección indica que están teniendo problemas con la instalación de los nuevos "dispensers" de papel sanitario. El Ing. Mir recomienda que no se instalen los nuevos, que se compren unos similares a los existentes y se de un crédito por la labor. El Contratista indica que comprará e instalará los "dispensers" que el Ing. Angulo seleccione.
18. La Sra. Martínez, del Departamento de Control de Infecciones del Hospital Universitario, pregunta cuándo se entregan los cuartos de aislamiento. El Contratista se compromete entregar los del cuarto y quinto piso para la primera semana de enero del 2000; los del tercer piso para finales de enero del 2000 y los del segundo piso para principios de febrero del 2000. En los del cuarto y quinto piso lo que falta es recoger, pintar y el "dispenser" del papel sanitario. El Contratista indica que para servirle aire acondicionado a estos cuatro cuartos, cambiará temporariamente la polea del abanico de la manejadora en lo que están listos los del segundo y tercer piso. Hará una orientación sobre las presiones requeridas en los cuartos y el funcionamiento de las alarmas.
19. La Supervisión le indica al Contratista que debe hacer una prueba de exfiltración en los conductos de aire de los cuartos de aislamiento del cuarto y quinto piso y el tramo hasta la manejadora, antes de entregar los cuartos. Esta prueba debe ser presenciada y aprobada por la Inspección.
20. El Contratista indica que Trane instaló la purgadora de la centrifuga #3 pero la centrifuga no funciona por estar llena de aire. Vendrá próximamente a solucionar el problema.
21. El Contratista hace entrega de una carta solicitando la extensión de tiempo por los trabajos de las facilidades temporeras de Ob/Gyn. La Supervisión hará un Memo Explicativo al respecto.

4-

Informe Hospital Universitario Fase-A
diciembre de 1999

22. El Ing. Amaral indica que hay que corregir el corte de la rejilla por donde pasa el conducto del aire de descarga del abanico del cuarto de máquinas. La Supervisión le indica al Contratista que verifique si las paredes que se encuentran debajo de esta rejilla no son de carga para poderlas romper y ubicar el conducto donde se presenta en el plano.
 23. Pendiente a que el Contratista provea e instale los mecanismos que hacen falta para abrir las ventanas en el área de Ob/Gyn.
 24. La Inspección indica que lo más crítico que queda pendiente es la reparación de la centrífuga #3.
 25. En cuanto a la válvula de tres vías instalada en la entrada de agua de torre de las centrífugas, la Supervisión indica que habló con el suplidor y éste indica que no cree que haya problemas con la caída en presión en la válvula; sin embargo, el problema puede estar en que la válvula esté parcialmente abierta y que, por no existir un sensor que la opere, no se puede determinar a menos que se quite el actuador y se abra manualmente. Al ser muy poco probable que pongan funcional el sistema de "reheats" con agua caliente, se determina que no hace falta esta válvula. Por lo tanto, se puede quitar o eliminarle el actuador y operarla de forma manual orientándose con el suplidor.
 26. El Ing. Amaral indica que urge el encendido de una de las celdas de la torre de enfriamiento y la bomba que le corresponde. Se señala que instalaron las bombas de retorno de combustible de los "day tanks" y que sólo queda verificar el respiradero.
